DESCRIPTION

The newer engine (called LS3) produces 432 HP and has a maximum speed of 6,600 rpm. With it, the Corvette C6 accelerates from 0 to 100 km/h in 4.4 s. This data is at the same level as other sports cars of similar power, such as the Audi R8 or the Porsche 911 GT3. The aerodynamic drag coefficient is very low for a car of this type: 0.286.

Compared to an Audi R8 or a Porsche 911, the Corvette is a quieter car with more comfortable suspension. For these reasons and the trunk capacity, which is very large, it can be one of the most practical sports cars of this type to use on a daily basis.

Price: We do not give latest prices, but we are happy to listen to reasonable offers and make every effort to accept them.

Cars Exchange (Cars as part payment): Normally we cannot accept cars as part of payment, but we have many customers looking for different cars, if you send us an email to sales@cohencars.com with the information of your vehicle (car photos, copy of the registration, KMs, general condition and defects). We can add it to our database in order to offer it to our customers. We can always make an offer to buy it immediately but will be much less than the market value.

Additional Information:We work much better by Email sales@cohencars.com than by phone, but if you prefer to call us, we will be happy to assist you!
