| Kilometers   | 25.000km |

## DESCRIPTION

The engine is a delight at any speed above idle. Obviously, to get maximum acceleration, you have to bring the engine to a high speed, but to drive normally, you don't have to worry much about gear shifting. With the engine running at more than 1000 rpm, you have the strength to move the car with agility.

**Price:**We do not give latest prices, but we are happy to listen to reasonable offers and make every effort to accept them.

**Cars Exchange (Cars as part payment):**Normally we cannot accept cars as part of payment, but we have many customers looking for different cars, if you send us an email to **sales@cohencars.com** with the information of your vehicle (car photos, copy of the registration, KMs, general condition and defects). We can add it to our database in order to offer it to our customers. We can always make an offer to buy it immediately but will be much less than the market value.

**Additional Information:**We work much better by Email **sales@cohencars.com** than by phone, but if you prefer to call us, we will be happy to assist you!

**"Life is too short not to buy the car you've always wanted"**
